

Safety Glasses Policy and Procedure

For a member to be eligible for MOST Safety Glasses they must follow these guidelines.

- Have an eligible status on the MOST Boilermaker Delivery System (MBDS)
- Have a current prescription within the last two years
- Member can order glasses every six months as long as they meet all the above requirements. If a member needs a new pair before the six months period they are available for purchase. Please note lost or stolen glasses are not covered by MOST.
- All payments must be submitted through money order. We do not accept personal checks or credit card information.

Please read and follow all instructions listed below in order to process your request for safety glasses as quickly as possible.

- 1) Contact MOST with the type of frame you would like. MOST will then send you a tester frame and prescription form.
- 2) Take the safety glass frame and the prescription form to your eye doctor. Ask your doctor to complete the form with your prescription and measurements. It is VERY important to have ALL the measurements from the doctor on the form. **If the prescription form is received incomplete, it will be returned to you and it will delay the processing of your glasses. DO NOT attach a copy of your prescription to the MOST form.** Your prescription **must** be on the MOST prescription form in order to process your request.
- 3) Please select either clear **or** 20% tint for the type of lens you would like.
- 4) If you choose to have **transition lenses** or **anti-reflective coating** made to your glasses, please be aware that these items are considered "additional" and are NOT covered by MOST. Please enclose a **money order** payable to MOST. **Do NOT send a personal check** or it will be returned to you. **See the back of this form for current prices.** Your order will NOT be processed without payment. Please write "Transitions" and/or "Anti-reflective coating" in the Special Instructions box on the form.
- 5) Check the pre-printed information at the bottom of the prescription form. If any information has changed, please make the proper corrections. Please note this is the address the lab uses for mailing your glasses, so it is important this info is correct. **Sign your name by the "X" on the bottom of the form to verify all information is correct.**
- 6) Return the tester frames and the completed prescription form in the shipping carton. Send to MOST for processing with the provided mailing label and pre-paid postage.
- 7) Glasses will be mailed to the address on the form approximately 7 - 10 business days AFTER your order is received at the lab.
